Property/Fence Line

River

Rollroad

Nonvisible Boundary

Glacier

Military

Inset

Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A " " following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

² In 1990, the crew-of-vessel population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crew-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

³ A " " following a block number indicates that the block number is repeated elsewhere in the block.

This figure is a 1990 County Block Map of Los Angeles County, California. The map displays the following features:

- Census Tracts and Blocks:** Large yellow-shaded areas represent census tracts, including Los Angeles CCD 91750 and Los Angeles 44000. Within these, smaller areas are delineated as blocks, many of which are numbered (e.g., 501, 502, 503, 504, 505, 506, 507, 508, 509, 101, 102, 104, 111, 1853, 1971, 1990, 209, 210).
- Geographical Features:** The map includes several reservoirs (e.g., Reservoir, Reservoir, Reservoir) and a river (San Gabriel River). It also shows various roads, including highways, secondary roads, and jeep trails/wakeby/ferry routes.
- Boundaries:** The map shows international, state, and county boundaries. A legend explains the symbols used for these boundaries.
- Inset Map:** A small inset map in the bottom right corner shows the location of the main map area within the state of California.
- Scale and Orientation:** A scale bar at the bottom indicates distances in miles (0 to 2) and kilometers (0 to 3). A north arrow is located in the bottom left corner.

All legal boundaries and names are as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement.
